

جامعة المجمعة  
عمادة الجودة وتطوير المهارات

The program chemistry  
College of education in zulfi

: MUP16

Outline of the curriculum learning outcomes and the program learning outcomes:

Course code CHEM122

:

### The course learning outcomes

The student is to identify electronic arrangement and periodic classification of the elements properly.	1
The student is to count foundations upon which the order of the elements is made in the periodic table .	2
The student is to explain bonding in a hydrogen molecule in the light of valence bond theory and the theory of molecular orbits.	3
To compare between the chemical properties of both Beryllium and Aluminium components properly	4
The student is to develop knowledge through the use of different learning resources in doing homework correctly .	5
The student is to show oral communication skills during classroom dialogue effectively.	6
	7
