

جامعة المجمعة عمادة الجودة وتطوير المهارات

Code MUP16

The chemistry program College of education in zulfi

Code MUP16

Outline of the course learning outcomes and the program learning outcomes:

Course code CHEM211

The course learning outcomes

The student is to know the different functional groups of organic compounds	1
within the curriculum of Organic Chemistry.	
The student is to distinguish between the different structures of organic	2
compounds	
The student is to know the basic principles of the methods of preparation of	3
organic compounds and reactions of organic compounds	
The student is to realize differences in the structural compositions as well as	4
physical and chemical properties of various organic compounds.	
The student is to practice analytical and creative skills of various concepts of	5
organic chemistry.	
The student is to practice the dialogue skills, effective influence and group	6
leadership, with taking responsibility for self-learning.	
The student is to master communication skills both orally and in writing. She is	7
to be able to perform calculations, to use computer technology in the field of	
organic chemistry and to prepare presentations and drawings of chemical	
compounds.	
compounds.
