Module Title:	Scientific English	
Module ID:	SENG-101	
Prerequisite (Co-requisite):	Nil	
Co-requisite:	N/A	
Course Level:	College request	
Credit Hours:	3 Hours	

Module Description

وصف المقرر:

The course of scientific English is dealing with providing students with some of the specific language and skills that they are likely to need studying physics, mathematics, biology, chemistry or computer science in English. The course will also focus on English language appropriateness in different contexts, with an emphasis on formal, academic contexts. Therefore, the course aims to develop the communication skills and specialist English language knowledge of science students and professionals, enabling them to communicate more confidently and effectively in their work or study environment.

أهداف المقرر:

1	to improve written skills through practice of writing descriptions, reports and other subject- specific texts.	
2	to improve spoken interaction and production through the practice and production of presentations of science-related topics.	
3	to get some specific terminology needed to study physics, mathematics, biology, chemistry or computer sciences.	
4	to develop grammatical and lexical range and accuracy so that communication has a degree of fluency.	

Learning Outcomes:

مخرجات التعليم:

1	Knowledge of specific terminology in physics, mathematics, biology, chemistry or computer sciences and specific academic subjects.	
2	Presenting clear descriptions of aspects related to science projects	
3	Improve the communication skills and specialist English language knowledge of science students and professionals.	
4	Enable students to communicate more confidently and effectively in their work or study environment.	
5	Ability to pursue autonomous learning based on the input provided in the classes and lectures and the feedback received.	
6	Develop the learners' language skills with practical reading and writing skills - such as applying for research funding or writing for publications - as well as with speaking and listening skills including 'Describing and Reporting Problems with Experiments' and 'Presenting at a Conference'.
