

Education College Organizes a Guiding and Educational Workshop under the Title of “Problem-solving skills

The unit of Academic Instruction in the Zulfi Education College, under the rule of the Guidance and Instruction Center in Al-Majmaah, presented a guiding and educational workshop for students, under the title of “Problem-solving skills” which was put into effect by the director of the unit of Instruction and Students Rights, Dr. Muhammadiyah Al-Sayed Shahata, and Dr. Hamza Muhammadiyah Ayasra. In addition, the aforementioned director raised the Islamic approach in dealing with problems; according to the Koranic approach and the Sunnah, and according to meditations in the conditions of the ancestors. Furthermore, he and Dr. Ahmad Abu Dhawib tackled scientific approaches in solving life problems, in general, and university problems, in particular, and ways to adapt to the university environment, and using different approaches to face different problems. In addition, some problems were raised and appropriate solutions were given-it is through dialogue and discussion that it is possible to reach the appropriate solution.
