## Comments :

## B Objectives

## What is the main purpose for this course?

Strategic Management article focuses on using simulation feeler primarily on the study of the fundamental tasks and functions of the heads of companies and boards of directors and senior management of business organizations. So trying to give students material that must be met in Executive strategic skills (Strategic Managers). And called on these skills "strategic thinking skills." These skills include the three main groups, namely:

1. drafting skills and college preparation strategies of the organization and its business units.
2. The successful implementation of the strategy skills.
3. Monitoring and reviewing strategic skills.

Briefly describe any plans for developing and improving the course that are being implemented :
-Courses are periodically reviewed by the department in the college to make sure to keep pace of developments in the specialty in terms of modernity and its responsiveness to the labor market.

- The use of modern references.
- A review of the requirements of the labor market.
- Compatibility with what they offer similar educational institutions in the same specialty.
- Observer of scientific conferences and specialized workshops.
