

Community Service Committee

Final Report

Academic Year 2016 – 2017

Several activities have been achieved by the community service committee this year, comprehensive all points of its action plan. As per each activity the committee worked to finalize all activities by acceptable achievement ratio such as:

- Encourage faculty to include in the topics of their courses real case studies from society and explore ways for improvements.
- Invite leaders from the non-profit and governmental organizations to share their experience in serving the society, where the committee contacted the charity association of Majmaah and arranged for a lecture, which is delayed due to the new scheduling of final exams of this year, and will be achieved at the beginning of next academic year.
- Offering our participations to some of the non-profit organizations, and follow finalization of some of these participations, such as Jalajel roundabouts.

The committee closes its activities related to this year by acceptable achievement ratios, and intends to follow and develop its action plan regarding the current and new community services at the beginning of next academic year 2017-2018.
