Since Deanship of Libraries Affairs is very keen to provide the latest information sources, organize it and made it available to all employees of the university, as one of its main objectives, Deanship canceled membership recently in 31 electronic databases (for global periodicals) and these databases are: –

1. Database Edusearch

The database EduSearch is considered a great informational and educational gateway that
represents the optimal solution for specialists and researchers in the field of education and academia. In fact, this database covers all Educational and Scientific periodicals issued in Arabic language in addition to the work and research of conferences and seminars in the field of education and academia. It is also considered the thorough and direct supply line plan for studies and educational research in full text.

Link to the database

Sciencedirect ² قاعدة بيانات

تغطي هذه القاعدة جميع الموضوعات المتعلقة بالزراعة، البيولوجي الفنون، العلوم الإنسانية، الكيمياء الحيوية، الأجهزة، الاقتصاد، الإدارة، المحاسبة، الهندسة الكيماوية، الكيمياء، علوم الحاسوب والكمبيوتر، تكنولوجيا المعلومات، العلوم الإدارية، علوم الأرض، الطاقة، الهندسة، علوم البيئة، علم المناعة والجراثيم، المواد، الرياضيات، الطب، طب الأسنان، طب الأعصاب، علوم الصحة والتمريض، الصيدلة والسموم، الفلك والفيزياء، علم النفس، العلوم الاجتماعية، والطب البيطري.
2. Database Sciendirection

This database covers all subjects related to agriculture, biology, arts, humanities, biochemistry, economics, management, accountancy, embroylogy, chemistry, chemical engineering, computer sciences, information technology, administrative sciences, ecology, computer sciences, managerial sciences, medicine, dentistry, nursing and health sciences, pharmacology, geology, mathematics, social sciences, psychology, physiology, and neurology. The database link is:

http://www.sciencedirect.com/science

Scopus

Scopus is a database that includes abstracts and reference citations for scientific publications in all fields. It provides access to more than 32,814 academic journals, 14,400 journals published online, abstracts and reference citations, 444,000 conference papers, 28 million abstracts, 201 million cites, and 31 million patent citations...
3. The database Scopus

The database Scopus contains summaries and reference citations about the intellectual production published in scientific periodicals and web resources in all fields of human knowledge. It also helps researchers access all the intellectual production published in more than 15 thousand topics available at more than 4000 publishers. The database Scopus also contains 12850 academic training sessions, 500 periodicals published on the internet, summaries and citations, 700 scientific conferences, 28 million summaries, 245 million reference citations and 13 million patents. The link to the database:

http://www.scopus.com/home.url

Gale Online Databases 4. قواعد بيانات

تحتوي على عدد من قواعد البيانات المتخصصة في المجالات العلمية والأدبية المختلفة إلى الفترة التجريبية لقواعد البيانات للكتب والدوريات ليصبح المجموع الكلي لقواعد البيانات الإلكترونية 4 قاعدة بيانات متخصصة

رابط القواعد:

http://infotrac.galegroup.com/itweb/majmaah
4. Gale Online Databases

This database contains a number of databases that are to do with different scientific and humanitarian fields and the trial period of databases for books and periodicals. This makes the total number of electronic databases 40 specialized databases. The link to the databases:

http://infotrac.galegroup.com/itweb/majmaah

5. Database Sage Premier with 560++ online full text journals

It contains full texts of 360000 articles in more than 555 refereed scientific journals – the best journals published in the world in the fields of communication studies, criminology, education, health sciences, administrative sciences, materials sciences, politics, psychology, sociology, architecture and other field of knowledge.

http://online.sagepub.com/login
**The link to the database is:**

[http://online.sagepub.com/login](http://online.sagepub.com/login)

---

**Academic Search Complete Plus**

6. قاعدة بيانات

**Database Academic Search Complete Plus**

It contains full texts for 4700 magazines and summaries for 3330 journals specialized in the fields of sciences, technology and sociology.

[http://search.ebscohost.com](http://search.ebscohost.com)

---

**Medline**

7. قاعدة بيانات

**Database Medline**

It provides bibliographic data and summaries for more than 4800 biomedical journals, along with full texts of more than 400 electronic journals.

[http://search.ebscohost.com](http://search.ebscohost.com)
It presents bibliographic data and summaries for more than 4800 medical periodicals in addition to full texts of 400 available electronic periodicals.

The link to this database is:

http://search.ebscohost.com/

---

IEEE/IEE Electronic Library (IEL)

This database covers all subjects related to electronic engineering, electrical engineering, computer sciences, information technology, applied physiology and other stuff.

The link to the database is:

http://ieeexplore.ieee.org/Xplore/guesthome.jsp

---
9. Database PQ Biology Journals

It is a main resource for information in the field of biology. It contains a group of journals that are widespread across the globe in the field of biology. The type of information it contains is: full text, complete pictures, and more than 53 scientific journals related to subjects in dietetics, zoology, history of nature, ecology system and other stuff since 1988

The link to the database is:

http://proquest.umi.com/pqdweb?cfc=1

10. Science Journals
10. Database Science Journals

It is a main resource in the field of sciences as a lot of faculties of sciences depend upon. It contains full texts and complete pictures approximately around 209 scientific journals related to subjects of dietetics, zoology, history of nature and ecology. It covers 1997 full texts, 1993 summaries, and 1983 catalogs.

The link to the database is:
http://proquest.umi.com/pqdweb?cfc=1

ABI / Inform Global

11. قاعدة بيانات ABI / Inform Global

It is one of the most important databases available that provides information about the trade since 1980. It covers a large group of journals in the commercial field and is used in most faculties of economics and management. It provides texts, summaries, and indexes in the field of economics and administration.
It is considered a very important available database that presents information on commerce since 30 years. It covers a big number of commercial journals, and it is used in most faculties of economics and administration around the world. Information varies between full texts, summaries, catalogs and complete pictures. It also contains 1000 scientific journals in the fields of administrative methods, markets, generic strategies and international industrial subjects. The link to this database is: http://proquest.umi.com/pqdweb?cfc=1

Medical Library

12

The database provides powerful groups in the medical and biological fields. The database contains graphics, diagrams, photos and other highlights of the basic cinematographic elements in medical research.
12. Database Medical Library

It presents a strong collection of medicine and biomedicine. This database contains graphs, charts and pictures and other basic things that are used in medical research.

The link to the database is:

http://proquest.umi.com/pqdweb?cfc=1

13. Database Dissertations and Theses – Full Text

This database is specialized in scientific theses and dissertations. It contains more than 2.4 million theses, and it is considered the most prominent in
scientific these publication as it publishes 65000 theses yearly. Also, it contains more than 930000 theses in PDF form

The link to the database is:

http://proquest.umi.com/pqdweb?cfc=1

14. Database Lisa

It contains 600 periodicals in addition to books and researches in the fields of libraries and information and what is related to them such as cataloging, classifying and information retreating.

The link to the database is:

http://proquest.umi.com/pqdweb?cfc=1
15. Database CSA Technology Collection

It is a complete collection that contains different subjects databases.

The link to the website is:

http://proquest.umi.com/pqdweb?cfc=1

It contains the database of various subjects such as acoustic science, aviation science, applied mathematics, computer science, artificial intelligence, quality control, control engineering, car engineering, chemical engineering, civil engineering, communication and information technology, computer and program building, electronics engineering, and electronic technology.

Link to the database:

http://proquest.umi.com/pqdweb?cfc=1

This database contains audiology, aviation, applied mathematics, electronic control, quality science, artificial intelligence, cars engineering, chemical engineering, chemistry, databases of computers and programs and establishing electronic and electrical engineering.

The link to the database is:

StatRef References Collection (86 Titles)

قاعدة بيانات 66 مرجع وعناوين مثالية من مختلف الناشرين ومتوفرة بطريقة سهلة للباحثين في مجال الطب، وتتنوع المعلومات بين نصوص كاملة ومستخلصات وفهرس
17. Database StatRef References Collection (86 Titles)

It is a medical database that displays references and ideal titles from different publishers available at the hand of researchers in the field of medicine. The information varies between full texts, summaries and catalogs.

The link to the database is:

AskZad قاعدة بيانات 18

تعد ذاكرة الصحافة العربية ومصدر معلومات شامل يلبى حاجة الباحثين والإعلاميين والمسؤولين في العالم العربي وخارجة. وتتميز هذه القاعدة بأنها باللغة العربية وعملية البحث جدا سهلة ومتاحة فيمكن البحث عن طريق اسم المقال، اسم الكاتب، اسم الصحيفة أو تاريخ النشر.

وتنيح خدمات أسك زاد في شكلها الجديد للباحث العربي مجموعة من قواعد المعلومات التي تغطي الإنتاج العلمي والفكري في العالم العربي من كتب ودوريات ومجلات وأبحاث ورسائل علمية وأوراق مؤتمرات وأيضاً معاجم متخصصة وقواميس متعددة اللغات والموسوعات.
18. Database AskZad

It is considered the memory of Arabian press and thorough information resource that meets the needs of all researchers, journalists and all people in charge in the Arab world and overseas. This database is unique as it is in Arabic, advanced and it is easy to search in using titles, name of article, name of author, name of paper and date of publication.

This database provides for researchers a group of databases that covers the scientific and intellectual production in the Arab world such as books, periodicals, journals, researches, theses, multi-lingual specialized dictionaries and encyclopedias.

**Cambridge University Press (CUP)**

قاعدة بيانات

تغطي جميع الموضوعات العلمية بما في ذلك الزراعة والأنتروبولوجيا وعلم الآثار والفن وعلم الفلك، وتاريخ بريطانيا، البيولوجيا الجزئية، والكيمياء، والدراسات
This database covers all scientific fields including agriculture, anthropology, astronomy, archeology, arts, history of Britain, chemistry, molecular biology, classical studies, computer sciences, engineering, English language and linguistics, European history, theology, psychology, sociology, medicine, philosophy, physics, politics, zoology and botany.

The link to the database is:

http://www.journals.cambridge.org/
26. Database **British Medical Journals (BMJ)**

This database covers clinical medicine science, pediatrics, sports science, neurology, psychology, general health, ethics of medicine profession, nursing, practicing management and heart diseases.

The link to this database is:

[http://group.bmj.com/products/journals](http://group.bmj.com/products/journals)

27. Database **Oxford University Press (OUP)**

This database covers different sciences such as humanities, laws, physics, medicine, mathematics, social sciences and life science.

The link to the database is:

28. Database Math Science
This database covers mathematics, statistics and arithmetic.

The link to the database is:

http://www.ams.org/mathscinet/

Databases whose subscription procedures are about to end

29. Database OVID collection

30. Database ACM digital library

31. Database Royal Society of Chemistry Journals (RSC) gold

A detailed explanation of the subjects of each database will be presented in the near future. It is worth mentioning that user names and passwords have been sent out to faculties, deanships, and administrations in university.
